

AMA iPACE™ Retreat
Monday, October 31, 2022

Goals:

- ❖ Celebrate and promote interprofessional team healthcare delivery and education as a cornerstone of patient-centered care
- ❖ Introduce the proposal to operationalize iPACE throughout MaineHealth
- ❖ Present iPACE project updates
- ❖ Discuss alignment amongst the iPACE units at Maine Medical Center and MaineHealth

Keynote learning objectives:

- ❖ Understand the importance of interprofessional socialization to support collaborative practice
- ❖ Differentiate between uniprofessional identity and dual (professional and interprofessional)
- ❖ Reflect on individual professional identity and identify enablers and obstacles to the shift from uniprofessional identity to dual identity in their discipline
- ❖ Formulate a plan that allows for interprofessional socialization in each unit or service
