

Goals: Celebrate and promote interprofessional team healthcare delivery and education as a cornerstone of patient-centered care

- ❖ *Introduce the “Re-Imagining Residency” AMA grant*
- ❖ *Refine and affirm iPACE principles as they are introduced in varied healthcare settings at Maine Medical Center and MaineHealth*
- ❖ *Define inter-professional team based care in the different settings*
- ❖ *Discuss and agree upon baseline metrics common to all sites*
 - ❖ Participants will have the opportunity to reflect upon and acknowledge their experience of change
 - ❖ Participants will be able to generate personal meaning and reframe their experience of change
 - ❖ Participants will consider their role and contributions towards co-creating change at the organization
